

Polycystic Kidney Disease Symposium 2008

May 9th, 2008 (8am-5pm)

The Joseph Martin Conference Center at Harvard Medical School
(Bray Room), 77 Avenue Louis Pasteur, Boston, MA 02115

This one day symposium organized by the PKD Center (director, Jing Zhou) will start with an introduction to the clinical presentation and current status of treatment of PKD, followed by lectures focus on the new understanding of Molecular Mechanisms underlying PKD, the function of primary cilia, centrosome, protein trafficking and cell adhesion in PKD and end up with a keynote lecture on kidney development.

Presenters: Members of the PKD Center at various Harvard Institutions and distinguished guest speakers

Registration (include breakfast and lunch): Free to all attendees

Seats are limited, please register by email to Evelyn Pena ASAP at epena@rics.bwh.harvard.edu
